Subject: RE: meeting today

Hello Rachelle,

Thanks for the update – I totally understand. These are challenging times.

Next week I could offer a webinar in any of the following times (all eastern):

Mon 12:30-6

Tues 2-6

Wed 9-11am or 3-6

Thur 10-1 or 2:30-6

Fri 12-2 or 3-6

I also participated on a webinar yesterday with several companies talking about the importance of mass balance approaches and the need for certification efforts like ours. When the recording becomes available I can send it along. It only offers a snapshot of the RMS, but it may help to put the need in context as it relates to chemical recycling.

All the best,
Laura

Subject: meeting today

Good morning Laura,

I was sending an email to you to confirm this afternoon. However, as of last night, our Assistant Administrator, requested his Town Hall meeting time be changed to 3 pm today. This obviously created a conflict that I was hoping we could avoid. Unfortunately, most of the interested branch chiefs and directors that were to be on your webinar, will not be available now. I am sincerely sorry for the inconvenience. With the COVID-19 pandemic, there have been constant updates from the administration. Is there any way that we can reschedule for next week? If I can get your availability, I can work around everyone's schedules for us to meet (via Zoom).

I have been reading about your work and am looking forward to this webinar.

Again, I am very sorry for any inconvenience.
-Rachelle
